

**ST. DOMINIC HIGH SCHOOL
110 ANSTICE STREET
OYSTER BAY, NEW YORK 11771**

Dear Parent/Guardian:

When crutches are required by a physician to be used by a student while attending school, consent from the physician and parent will be necessary in order to insure that the student is capable and knowledgeable in the use of crutches on stairs and throughout the campus.

Since the physical layout of St. Dominic High School is comprised of three buildings, frequent stair climbing is involved in order to attend classes. On inclement days when the stairs become wet, a special hazard exists for crutch users. On these days the library will be available for their lessons. The enclosed consent must be returned to the nurse before your child will be permitted to attend school on crutches. Thank you for your cooperation.

The Health Office

(Student Name) _____ has been instructed in the use of crutches for walking and stair climbing and has my permission to attend school with them.
